

Umang Saluja

Technical Product Management Enthusiast — Flutter & AI Developer

Ghaziabad, India [+91-9568810150](tel:+91-9568810150)

[Personal Email](#) [College Email](#)

[LinkedIn](#) [GitHub](#)

Professional Summary

Computer Science undergraduate with experience building user-focused mobile and AI-powered applications using Flutter, FastAPI, and Firebase. Interested in Technical Product Management roles involving product strategy, user experience, collaboration, and technology-driven problem solving.

Education

B.Tech – Computer Science 2024–2028

KIET Group of Institutions

Current SGPA: 8.61

Class XII – ISC 2024

94.25%

Class X – ICSE 2022

93.8%

Projects

NutriLens – Smart Food Nutrition Analyzer Mar 2026 - Apr 2026

[GitHub Repository](#)

- Developed Flutter-based nutrition tracking application to simplify daily food analysis and improve nutrition awareness.
- Integrated Flask APIs and Firebase Firestore for nutrition history tracking and prediction workflows.
- Designed intuitive mobile workflows focused on usability and simplified user interaction.
- Combined Machine Learning prediction workflow with practical mobile application usability.

AI Interview Coach App Feb 2026 - Mar 2026

[GitHub Repository](#)

- Developed AI-assisted interview preparation application using Flutter, FastAPI, and Firebase.
- Implemented answer analysis, keyword relevance scoring, and AI-assisted feedback workflows.
- Designed features focused on usability, communication practice, and structured user interaction.
- Implemented seamless frontend-backend communication and workflow integration.

GradeBoost Mathematics App Nov2024 - Dec 2024

[GitHub Repository](#)

- Developed educational Android application using Kotlin and XML for mathematics learning support.
- Designed interactive learning modules and student-focused problem-solving features.
- Collaborated with team members on UI design, feature planning, and implementation.
- Secured First Prize at National Mathematics Day Project Presentation event.

Technical Skills

- **Languages:** Java, Kotlin, Python, Dart, C
- **Mobile Development:** Flutter, Android SDK, XML, Firebase, REST API Integration
- **Machine Learning:** Scikit-learn, OpenCV, NLP Basics, Data Preprocessing
- **Backend:** FastAPI, Flask, API Development
- **Databases:** Firebase Firestore, SQL, NoSQL
- **Tools:** Git, GitHub, Android Studio, VS Code, Google Colab

Product & Collaboration Skills

- User-Centered Problem Solving
- Product Thinking
- Cross-Functional Collaboration
- Communication & Presentation
- Requirement Understanding
- Analytical Thinking
- Feature Planning
- UI/UX Awareness

Coursework

- Data Structures and Algorithms
- Database Management Systems
- Operating Systems
- Machine Learning and Data Analytics

Certifications

- Flutter Development
- Flask Development
- Oracle SQL
- NoSQL Databases
- Java OOPS Concepts
- Oracle Java Foundation

Leadership & Collaboration

- Collaborated with peers on application design, feature discussions, and technical implementation during academic and club projects.
- Assisted students in development concepts, project building, and coding problem-solving approaches.
- Participated in Android and Machine Learning technical communities and coding activities.

Achievements

- Member – Innogeeks Android Domain
- Member – DSDL Machine Learning Domain
- Participated in Innogeeks Winter of Code 3.0
- First Prize – National Mathematics Day Project Presentation
